FLY BACK IN TIME

Experience flight as it was 60 years ago with a joy flight in our De Havilland Tiger Moth. The Tiger Moth was the cornerstone of military and private flight training in Australia and Britain. It is a lovely aircraft with impeccable handling characteristics. Our aircraft is fully restored and maintained to as new condition and operated by a very experienced crew.

Itineraries are tailored specifically to the sights you want to see. They range from flights offering a bird's eye view of Melbourne's CBD and Docklands (as few others see it), to a complete tour around Port Phillip Bay. If the countryside is more to your liking, try a 1 hour flight to the Yarra Valley and vineyards.

For the more adventurous, Bini Flight services offer a trial lesson with a professional flying instructor, where you get to handle the controls under supervision. We also offer an aerobatic flight with basic maneuvers designed to demonstrate the joy of seeing the world upside down.

All passengers receive a full colour, signed certificate to commemorate their flight

For non-flying family and friends, there are many attractions around Moorabbin airport to keep everyone entertained. Try shopping at DFO, or a relaxing coffee in our passenger lounge.

Treat yourself to an incredible experience, or give the gift of flight to celebrate a special occasion. Prices for all flights start at just \$195. Please call 03 9580 5295 to discuss your requirements. To ensure maximum passenger comfort and enjoyment of the flight, we carefully select the weather conditions, so please try to be flexible with your booking times. Costs are calculated on approximate flight times, but all flights take longer due to taxiing and traffic at Moorabbin.
